

# L200 BROWNING<sup>®</sup>

After the success of the stunning Shogun Browning, we received enquiries for a no-nonsense, practical, off-road shooting vehicle that was at a more affordable price. Using many of the unique features of the Shogun Browning we developed the L200 Browning. With the legendary toughness and reliability of both Browning and Mitsubishi, the partnership seemed a perfect match. With its practical but luxurious 5 seats, separate enclosed cargo area, rugged off-road wheel and tyre package; and with the sophisticated and reliable full-time four-wheel drive system together with the 175bhp diesel turbo intercooler engine - the L200 Browning was born.

The L200 Browning was designed to be fully versatile: it can be used to carry materials and equipment, 4 passengers, and if required tow a trailer for work; on the shoot days... carry the guns, dogs, luggage and you and your passengers' in comfort and style.

Standard equipment includes:

- unique Browning leather upholstery
- Browning style alloy wheels & All Terrain tyres
- colour keyed glazed lockable canopy with opening windows
- heavy duty liner
- alarm & keyless entry
- electric windows all-round including rear cab
- privacy glass
- air conditioning, climate control
- electronic compass, barometer & altimeter
- side steps
- electronically adjustable/heated/folding door mirrors
- Mitsubishi Active Stability & Traction Control (M-ASTC)
- differential lock

Additional optional equipment includes:

- gun security drawers, which can double-up as tool drawers for work
- dog box
- reversing camera
- tow bar
- 5 speed automatic transmission
- metallic paint
