Mitsubishi 4WD Drop-sides & Tippers

The extended cab pick-up, with optional 4 seats, can carry the driver plus 3 passengers, or can be used as secure and dry storage for tools, etc. Available with 2.5 Turbo Diesel 134bhp or 165bhp engines, all with 4x4 and rear diff. lock, high and low ratio and ABS.

The electro hydraulic under floor tipping gear makes easy work of tipping loads off the aluminium or steel flat-floored body saving time and backache! And also with drop-side for easy loading.

Also available in drop-side (non-tipper), giving a slightly higher carrying capacity. The extended cab Mitsubishi L200 4x4 drop-side (non-tipper) pick-up with aluminium or steel bed also has removable side panels and corner posts to convert to a flatbed for complete versatility of loading and carrying options.

For less cab space and a longer bed Firs Garage also offer the option of a Mitsubishi L200 Single Cab 4WD Tipper. Also available from Firs Garage is the complete range of Mitsubishi L200 pick-ups.

Club cab with optional 4 seats

Bespoke alterations & additions available
